TABLE FOR CONTENTS

1	Alphabetical Listing Licensees, Permittees, Subsidiaries, Divisions
5	Numerical Listing of Establishments
12	Vaccines and Viruses
28	Bacterins and Bacterial Extracts
37	Antiserums
38	Vaccines with Bacterins/Toxoids
49	Diagnostics
53	Antitoxins
54	Bacterin-Toxoids
58	Toxoids
59	Miscellaneous
60	Index of Product Components

INTRODUCTION

This publication lists all licensed establishments, licensees, and permittees, with their subsidiaries and divisions, as well as a list of the biological products they are authorized to produce or import.

An alphabetical listing identifies the firms with the appropriate establishment by license number.

A listing of licensed establishments by number identifies each licensee, permittee, subsidiary, and division authorized to do business in the establishment.

An index of product components has been added which lists by page number each antigenic fraction. The fraction reference may appear in more than one section; for example, canine distemper appears in vaccines, antiserums, and vaccines with bacterin/toxoids.

Under the listing of licensed biological products, the principal parts of the true name are underlined, and each product is assigned a code number by Veterinary Services. A separate license is issued and a code number assigned for each Outline of Production filed. The license number of each firm authorized to produce a biological product is listed to the right of the product.

The alphameric system used for product codes provides for a six-digit number or number-letter combination to be assigned to each product, i.e., the first digit denotes product types; second and third, grouping by agents; fourth, the viability of the product (live, killed, modified live, etc.); fifth, substrates; and sixth, miscellaneous variables.
